

TRANSPORTABLE TERMINAL

PMC EGGO is a transportable terminal designed to process bet transactions. With its extensive communications interfaces (Ethernet, 3G and Wi-Fi) and integrated batteries, operators are able to circulate freely around venues.

◆ MOBILITY

With its all-in-one format and compact footprint, it is easily transported from one retail outlet to the next, using its specially designed rucksack.

◆ AUTONOMY

With integrated battery pack and extensive communication interfaces, operators have the flexibility to move freely around the facility.

◆ DURABILITY

Watertight and resistant, it is designed to adapt to challenging environments and extreme weather conditions.

TECHNICAL SPECIFICATIONS

DIMENSIONS
Height 141 mm
Width 398 mm
Depth 319 mm

WEIGHT
5,3 kg

OPERATING CONDITIONS
Temperature : 5 - 50°C
Humidity : 5-85% condensation-free

STANDARDS
Complies with 89/336/EEC, ROHS and DEEE standards

◇ **USER INTERFACE**

LCD/TFT 10.4" 4:3 colour touchscreen
Multi-touch touchscreen screen (3mm)

COMMUNICATION INTERFACES ◇

1 Fast Gigabit Ethernet port
4 USB 2.0 ports to rear of unit
1 internal USB 2.0 port
Wireless communication options:
internal Wi-Fi module, bluetooth, 3G or 4G

SCANNER ◇

VGA optical drive
83x60mm scanner tray
1D, 2D, QR, OCR and barcode reader

POWER SUPPLY ◇

Voltage: 100 - 240V
Frequency: 50 - 60 Hz
Current: 0.5 - 1A
Rated power: 35W Nominal, 80W max. in printing mode.

◇ **SOFTWARE**

LINUX
Multi-tasking operating system,
downloadable application software.

◇ **CPU**

I.MX 6 Quad processor (4x800Mhz)
RAM: DDR3L 2GB
Flash memory: 8GB
Hard drive: SSD 32GB
Non-volatile memory: 32KB

◇ **PRINTER**

300 dpi thermal printer
Printing speed: 10cm/second
Lifecycle: 25m paper roll (approx. 250 receipts)
Paper width: 82.55mm

◇ **BATTERY PACK (OPTIONAL)**

1 - 2 12V/4.5Ah battery-packs
Lithium Iron Phosphate technology
Integrated load control

OTHER PRODUCTS IN THE PMC RANGE

PMC
2061

PMC 2061 is a multi-purpose self-service kiosk designed to process bet transactions. With its robust design it has the capacity to adapt to a range of settings including town-centre retail outlets and at the racecourse.

PMC
2031

PMC 2031 is an innovative, counter-top terminal designed to process bet transactions. With its modular format, it is designed to adapt to challenging environments in town-centre retail outlets or at the racecourse.

PMC
2020

PMC 2020 is a high-performance counter terminal designed to process bet transactions. With its all-in-one format, it can adapt to a range of environments, from town-centre retail outlets to racecourses.
